Imagining: Creating/Inventing  
Solving Problems: Planning a Strategy

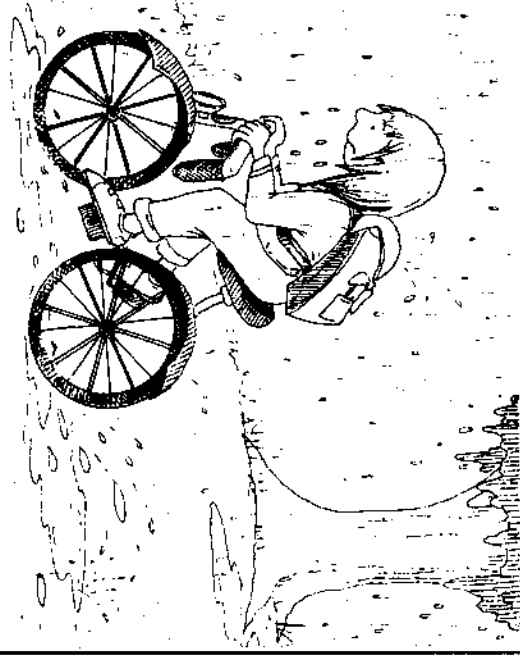

Name \_\_\_\_\_

Billy is late for school. He has to get dressed in a hurry. But his sock drawer is a mess. He can't find two socks that match!

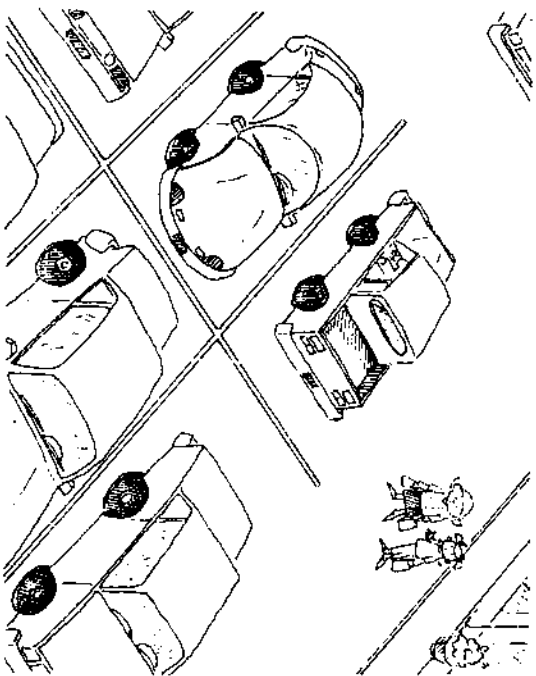

Can you invent something so Billy will be able to match his socks quickly?

Sandy is riding her bike home from school. All of a sudden it starts to rain. Sandy can't carry an umbrella and ride her bike at the same time.

Can you invent a new kind of umbrella that Sandy can use when she's riding her bike?

Tina and her mother are finished shopping. But they can't remember where they parked the car. And there are many, many cars in the parking lot!

Can you invent something that will help Tina and her mother find their car?
